## **Notice of Privacy Practices Acknowledgement**

This office is required to notify you in writing, that by law, we must maintain the privacy and confidentiality of your Personal Health Information. In addition, we must provide you with written notice concerning your rights to gain access to your health information, and the potential circumstances under which, by law, or as dictated by our office policy, we are permitted to disclose information about you to a third party without your authorization. Below is a brief summary of these circumstances.

### **Permitted Disclosures:**

- Treatment purposes – discussion with other health care providers involved in your care
- Inadvertent disclosures – open treating area means open discussion. If you need to speak privately to the doctor, please let our staff know so we can place you in a private consultation room
- For payment purposes – to obtain payment from your insurance company or any other collateral source
- For worker's compensation purposes – to process a claim or aid in investigation
- Emergency – in the event of a medical emergency, we may notify a family member
- For public health and safety – in order to prevent or lessen a serious or eminent threat to the health or safety of a person or general public
- To governmental agencies or law enforcement – to identify or locate a suspect, fugitive, material witness, or missing person
- For military, national security, prisoner, and government benefits purposes
- Deceased persons – discussion with coroners and medical examiners in the event of a patient's death
- Telephone calls or emails and appointment reminders – we may call your home/cell and leave voice/text messages regarding an appointment, a missed appointment, or notify you of changes in practice hours or upcoming events
- Announcing names in queue at the front desk & reception area – we announce the first and last names of patients in queue that are waiting to be treated (eg. "Jane Smith, please proceed to room 2"). Please notify the office manager if you would like this to be changed
- Change of ownership – in the event this practice is sold, the new owners would have access to your Personal Health Information

### **Your rights:**

- To receive an accounting of disclosures
- To receive a paper copy of the comprehensive Detail Privacy Notice
- To request mailings to an address different than residence
- To request restrictions on certain uses and disclosures and with whom we release information to, although we are not required to comply. If, however, we agree, the restriction will be in place until written notice of your intent to remove the restriction.

### **Terms of Acceptance**

In order to provide the most effective healing environment, the most effective application of chiropractic procedures, and the strongest possible doctor-patient relationship, it is essential for both parties to be working toward the same objective. It is important that each person understand both the objective and the method that will be used to attain this goal. This will prevent any confusion or disappointment.

- Chiropractic is a very specific science, authorized by law to address spinal health concerns and needs. It is not the practice of medicine.
- Chiropractic seeks to maximize the inherent healing power of the human body by restoring normal nerve functions through the adjustments of vertebral subluxation(s). Subluxations are deviations from normal spinal structures and configurations, and considered to be a partial dislocation. A subluxation that interferes with normal nerve processes is called a neuro-structural shift.
- The chiropractic adjustment process, as defined in the law of this jurisdiction, involves the application of a specific directional thrust to a region or regions of the spine with the specific intent of re-positioning misaligned spinal segments. This is a safe, effective procedure applied over one million times a day with doctors of chiropractic in the United States alone. Chiropractic does not seek to replace or compete with your medical, dental, or other type(s) of health professionals. They retain responsibility for care and management of medical conditions. We do not offer advice regarding treatment prescribed by others.

### **No-Show, No-Communication Fee Policy**

At Apex Chiropractic, it is our top priority to ensure that your time is respected to the utmost degree. We also ask that our practice members do the same to ensure that everyone has a pleasant experience. In light of this, it is our office policy that after there are three (3) consecutively scheduled appointments that are missed without any form of communication (phone call, email, sms message), the 4th and future visits that are missed will be charged \$20 per visit to a card on file until communication is received from the practice member to cancel/postpone future appointments or until a scheduled visit is attended by the practice member.

**Informed Consent For Chiropractic Care**

Chiropractic Care, like all forms of health care while offering considerable benefits may also provide some level of risk. This level of risk is often very minimal. Yet in rare cases, injury has been associated with chiropractic care. The types of complications that have been reported secondary to chiropractic care include: sprain/strain injuries, irritation of a disc condition, and rarely, fractures. One of the rarest complications associated with chiropractic care occurring at a rate between one instance per one million to one per two million cervical spine (neck) adjustments may be a vertebral injury that could lead to a stroke. Prior to receiving chiropractic care in this office, a health history and physical examination will be completed. These procedures are performed to assess your specific conditions, your overall health, and in particular, your spinal health. These procedures will assist us in determining if chiropractic care is needed, and if any further examinations or studies are needed. In addition, they will help us determine if there is any reason to modify your care or provide you with a referral to another health care provider. All relevant findings will be reported to you along with a care plan prior to beginning care.

By signing below:

- I understand and accept that there are risks associated with chiropractic care and give consent to the examination that the doctor deems necessary and the chiropractic care, including spinal adjustments, as reported following my assessment.
- I authorize and request payment of insurance benefits directly to Dr. Kamen Blau. I agree that this authorization will cover all services rendered until I revoke the authorization. I agree that a photocopy of this form may be used in place of the original. All professional services rendered are charged to the patient. It is customary to pay for services when rendered unless other arrangements have been made in advance. I understand that I am financially responsible for charges not covered by this assignment.

By signing below, you are acknowledging and agreeing to all statements listed above and on the previous page.
